DESCRIPTION

RIVIERA MAYA GOLF CLUB, is located on the Mayan Riviera, Mexico at 100 Km. south of Cancun's International Airport. With thirty six holes cut deep into an ancient limestone quarry and fairways flowing along the natural contours of a jungle dense with mangroves and gum trees, limestone boulders piled at the edge like rubble swept aside by Mayan Gods. More than a game it is an environmental experience. To ensure that this development offers to the golfers an unparalleled experience, Grupo Pinero retained the world-renowned firm of Robert Trent Jones II, best known for having an environmental sensibility and applying the latest technology, these golf architects have successfully integrated the nature wonders of the region with the design of the course. RIVIERA MAYA GOLF CLUB has 3 championship 9 holes courses plus an executive 9 holes Par 27 course. At the practice area, golfers will find 2 driving range tee boxes, a chipping area with a bunker and a putting green that will provide the perfect way to warm up before a round or attend golf clinics or private lessons. Spanning 223 acres and set within a total of 717 acres of tropical rain forest, this is aimed to become one of the world's leading courses. The first 9 holes will be ready to open on Dec. 15th, 2009. The second 9 holes will be schedule to open on February, 2010 as well as the executive

THE COURSE

RIVIERA MAYA GOLF CLUB is an impressive work of architecture where the designer Robert Trent Jones II, has attained an spectacular synergy between the 36 golf holes and the lush Mayan jungle integrating natural lakes and cenotes (sink holes) within the rugged terrain. Players of all levels will find that the design is both fun and challenging. Nature lovers will be delighted to interact with different species of plants and animals while playing a round. Gum trees, foxes, coatis and dozens of birds are the everyday scenery at our club.

SPECIFICATIONS

The first 18 holes to be active measure 7,483 yds and 1,356 yds for the executive 9 hole Par 27. To make the course more enjoyable, the design integrates natural water hazards such as lakes and cenotes.
