The staff and chef do not work on Sundays. Thus, if the guests arrive on Saturday and want the cook to prepare the breakfast for them on Sunday morning, they need to give to the cook directly \$100 US. The fee of \$100 US for the cook service is for the whole day (breakfast, lunch, dinner) and not only breakfast.

If they choose not to use Chef on Sundays, they could prepare the meal themselves as the food will be in the fridge.

If they have any special requests (vegetarian meals or any other special meals), they need to let us know in advance and just to pay the difference.
